

Objectives of the Meeting and Effectiveness

Objectives:

1. Review the SPASE Data Model and any problems that may need to be addressed.
2. Review progress in testing the data model through descriptions of selected data sets.
3. Plans for implementing technologies to aid data descriptions and the building and maintenance of SPASE registries.
4. Discuss the relationship between SPASE and the VxO's and Data Centres.
5. Discuss the evolution of the SPASE effort in the future.
6. Suggest approaches to promote and coordinate the SPASE effort within the world wide community.

Suggestions for Meeting (from previous meeting evaluation):

- Review list of issues before discussing
- Keep discussions to reasonable length (too much time on tiny details)
- Clarify relationship between SPASE and VxO's
- Need VxO users involved discussing their needs
- Try to display Data Model or examples of it when parts of it are being discussed
- Various interpretations of the Data Model can be confusing
- Strive for wide community buy-in
- Telecons need to be more effective
- Define some key scientific applications or use cases
